X-TOUCH MINI

Ultra-Compact Universal USB Controller

- Universal Pocket Remote Control for DAWs, Instruments, Effects and Lighting applications
- Features Mackie Control* emulation mode for seamless integration with every compatible music production software
- Long-wearing 60-mm master fader
- Dual-Layer mode for quick change between DAW and instrument control
- Pre-configured control elements for instant operation out of the box
- User-friendly editor application for in-depth configuration downloadable free of charge from www.behringer.com
- 8 rotary controls with LED-collars for on-the-fly adjustments of your favorite parameters
- 16 dedicated illuminated buttons (including transport control) for direct access of key functions
- Built-in USB MIDI interface for direct connection to Mac* or PC computers - no drivers required
- Ultra-compact design for easy cascading and add-on for other X-Touch models
- Immediate access to 2 layers of 25 control elements
- USB bus-powered, no power adapter required

The X-TOUCH MINI Ultra-Compact Universal USB Control Surface puts the power of your production software right at your fingertips! The user-friendly and extremely versatile X-TOUCH MINI gives you take-anywhere, hands-on control of all popular DAWs, instruments, effects and lighting applications. Let your creativity run wild when you get your hands off your mouse and onto this nifty little controller!

Universal Control

Today's DAWs, instruments, effects and lighting applications are designed to interface with controllers that enable users to make high-precision changes with minimal effort. Built-in Mackie Control* emulation allows your X-TOUCH MINI to work with virtually any professional audio production software imaginable – as soon as you take it from the box – no setup required!

X-TOUCH MINI

Ultra-Compact Universal USB Controller

- USB class-compliant with Mac and PC computers
- 3-Year Warranty Program*
- Designed and engineered in Germany

Get To Work Quickly

The X-TOUCH MINI features a long-lasting 60 mm master fader, and a Dual Layer Mode for quick changes between DAW and instrument control – or switching between any two applications. For example, a DJ can use one layer for virtual synths – and the other to control lighting during his show. Or an engineer in a house of worship could control lighting on one layer and playback from a DAW in the other. You get right to being creative quickly, because the MINI comes with pre-configured control elements for instant operation out of the box. However, you are also free to customize the experience with our free, downloadable and user-friendly editor app.

Feature-Packed Wonder

The MINI features 8 rotary knobs with LED-collars for on-the-fly adjustment of your favorite parameters. It also has 16 dedicated, illuminated buttons (including transport control) for direct access to key functions of your DAW. The built-in USB/MIDI interface allows direct connection to your Mac/PC, and for future add-ons of other controllers – no drivers required. Just plug into the X-TOUCH MINI for immediate access to 2 layers of awesome control!

X-TOUCH MINI

Ultra-Compact Universal USB Controller

Thoughtfully Designed

The ultra-compact design easily fits in your backpack and allows cascading or adding other X-TOUCH models. Power is supplied via your USB bus, so you no need to carry a power supply – and the high-quality, rugged construction means you'll have this trusty MINI-workhorse by your side for years to come.

Visit your local dealer or online reseller and get hands-on control of your software in a way you never thought possible. The X-TOUCH MINI lives up to the old adage that big things come in small packages!

Compose. Record. Mix. Share.

Tracktion is one of the world's fastest and easiest Digital Audio Workstations (DAW) for composing, recording, editing, mixing and sharing your music with the world. Featuring a single-screen interface, and pushing the envelope in design elegance, Tracktion brings together outstanding Pro DAW features, such as dynamic automation, unlimited track count, MIDI recording and support for VST and AU plug-ins. This powerful music production software gives you all the tools of an entire professional-grade recording studio. Learning a DAW has never been easier, thanks to their vast and readily available library of resources.

As our way of saying "Thank You" when you register your X-TOUCH MINI at behringer.com, we'll reward you with a complimentary download code for the full version of Tracktion. Recording and editing couldn't be easier. To learn more about Tracktion, visit tracktion.com/support/videos.

Share the Love. Visit tracktion.com for more.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
